- Tank batteries
- Mud lines
- Injection lines
- Salt water disposal
- Waterflood plants
- Production headers
- Wellhead hookup
- Gathering lines

Complete tank battery piping from wellhead to pipe line – couplings, fittings, valves.

Heater treater and other production piping.

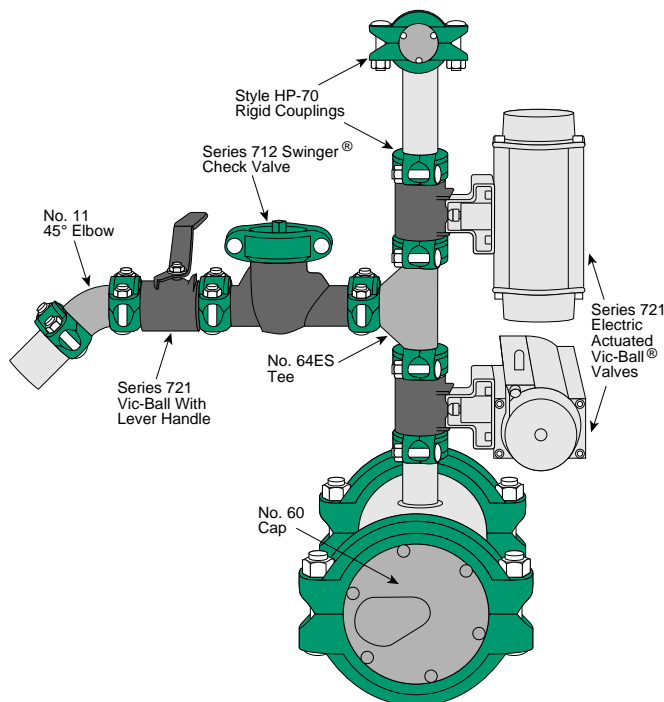

Joins FRP and other specialty piping.

Automated grooved valves complete remote header packages.

Complete offshore mud return, drain, water and other production lines.

Grooved system components are easily internally epoxy coated and assembled with two bolts.
