

## ORIGINAL EQUIPMENT

- Heating, air conditioning equipment
- Mixers, blenders
- Air compressors
- Water conditioners
- Dry conveyors
- Chemical process equipment
- Cooling towers
- Cyclones, separators
- Tank trucks
- Reverse osmosis
- Elevator hydraulic lines

*Reverse osmosis grooved end caps allow easy filter membrane cleaning, removal and service.*

*Fast, easy military vehicle piping assembly.*

*UL/FM approvals permit use on mobile fire equipment services.*

*Heating, cooling and plumbing equipment.*

*Desanders and desilters utilize Snap-Joint® quick disconnect and standard couplings for easy service.*

*Fueling trucks, tank trucks and over-the-road equipment utilize vibration/flexibility characteristics.*

*Pre-assembled fire pumps and other fire equipment utilize the complete system.*

*OEM applications for cyclones, separators, filters, reverse osmosis and other units are common.*
